

WHAT YOU'LL LEARN

CMMI Model

Understand how the CMMI® model connects directly to business value and organizational performance.

Capability

Learn to use the CMMI model to analyze, improve, and sustain process capability across diverse organizational contexts.

BUILDING ORGANIZATIONAL CAPABILITY (BOC) COURSE

Overview

Enhance your organization's ability to develop and engineer products, deliver and manage services, engage and manage suppliers, oversee data and people, and ensure safety and security with this foundational learning experience.

The Building Organizational Capability course provides the essential knowledge to apply the CMMI® model as a strategic tool for driving measurable performance improvement across all business domains.

Domains

Explore the components of CMMI®, including the eight domains: Data, Development, People, Safety, Security, Services, Suppliers, and Virtual.

CMMI Appraisals

Recognize the strategic value of CMMI appraisals in benchmarking and guiding organizational growth.

WHO SHOULD ATTEND

This course is ideal for:

- Professionals aiming to improve organizational performance and process maturity.
- Individuals beginning their CMMI journey and seeking to qualify as a CMMI Appraisal Team Member.
- Business leaders, quality managers, project managers, and process improvement practitioners looking to deepen their understanding of capability development.

WHAT YOU'LL RECEIVE

Upon completion, participants will earn:

- A Certificate of Completion
- One Exam Credit toward the Certified CMMI Practitioner Exam
- CMMI Practitioner Certification upon passing the exam
- Eligibility to serve on CMMI Appraisal Teams across all CMMI domains
- Qualification for advanced CMMI training opportunities

COURSE FORMAT & REQUIREMENTS

This interactive course combines lectures, discussions, and practical exercises designed to promote active engagement and collaboration.

Participants are required to:

- Attend the entire duration of the course to receive credit
- Actively participate in discussions and exercises
